<b>Date of dissemination</b>	November 4 <sup>th</sup> 2006 and February 5 <sup>th</sup> , 2007
<b>Place of dissemination</b>	Risø, Roskilde and Nordkraft, Aalborg, Denmark.
<b>Brief abstract / description of dissemination activity</b>	<p>The meetings were each attended by app. 200 members of the Association (mainly wind turbine owners) along with invited guests. The first meeting included a speech by the minister of environment, the second by a member of parliament.</p> <p>At such meetings the questions of the value of wind power electricity and the problem of the excess electricity is always in focus. At both meetings I explained the core idea of the Desire project: To make use of the heat accumulators and eventual heat pumps at the CHP plants to improve the capacity of the electricity system to balance fluctuating electricity production sources like wind power.</p>
<b>Audience impact assessment</b>	According to personal requests after the meetings several members found the above point of view relevant and important.
<b>Dissemination</b>	Not available in printed form
