

Reporting on dissemination activities carried out within the frame of the DESIRE project (WP8)

Name, Affiliation	David Toke, The University of Birmingham
E-mail	d.toke@bham.ac.uk
Title of dissemination	DESIRE Public Seminar
Type of activity	Organization of a one day free public seminar
Title of forum	DESIRE Seminar
Language	English
Date of dissemination	November 9 th 2005
Place of dissemination	Austin Court, Birmingham, UK
Brief abstract / description of dissemination activity	The seminar explained the DESIRE project and the types of integration techniques (centring on CHP-wind co-production demonstrations). The aim of this meeting was to solidify co-operation for the initiative among key players as a preparation for the demonstrations of the co-production, after which there will be wider dissemination including a rather larger event.
Audience assessment	impact People with interests and involvement in related sectors with CHP and renewable energy both from the University as well as from private sector participated and showed interest in the DESIRE project objectives.
Dissemination	Not available in printed form
