

Reporting on dissemination activities carried out within the frame of the DESIRE project (WP8)

Name, Affiliation	Heiki Tammoja, The Tallinn University of Technology
E-mail	Heiki.Tammoja@ttu.ee
Title of dissemination	DESIRE Public Seminar
Type of activity	Organisation of a public seminar
Title of forum	DESIRE seminar
Language	English
Date of dissemination	September 19 th , 2006
Place of dissemination	Tallinn University of Technology, Tallinn, Estonia
Brief abstract / description of dissemination activity	The seminar explained the main principles of the DESIRE project and focused on the use of time-dependent feed-in tariffs and the application of the energy stores at the CHP plants. Special attention was paid to the regulating up and regulating down capacities of CHP plants with energy stores and to the market of those capacities
Audience assessment	impact Experts from the Energy Department of the Ministry of Economic Affairs and Communication, Estonian Power Company Eesti Energia, university and private sector showed interest in the DESIRE project objectives, however, noticed the absence of legal incentives for the development of these ideas in Estonia today
Dissemination	Available in the form of John Sievers' presentation.
